March 2018

DOA CARES

www.delhiortho.org

doadoffice@gmail.com

Month of March began with HOLI which is a festival of colours, colours of which were reflected as a spectrum in DOA educational meets. Month of March was deemed as an educational feast for orthopaedic surgeons belonging to different age groups. First highlighted and focused event in the month of March was 14th sports medicine and arthroscopy workshop, held on 11th March in Ganga Ram Hospital under chairmanship of Dr. Prateek Gupta. The agenda of the conference was to emphasize over the knee preservation techniques using either a chemical technique involving techniques like PRP etc. or surgical techniques like realignment osteotomy. The core of the conference was further solidified by live

surgeries and 2 workshops for delegates on menisci repair, OATS and HTO. Around 100 delegates attended the conference which has made this conference a big success. Over the top of it, was the hands-on workshop for delegates to understand the basics of knee preserving surgeries. Detailed and exhaustive discussion went between ever going debatable topics like VISSCO supplementation in knee joint, OATS, BMAC, ACI, off-loader brace and many more. Conference was deemed as a huge

success with a good no. of participation and in detail discussion and wonderful arrangement of every minor detail including the lunch for the faculty and delegates.

As we all know that April is the month of exams for 3rd year post graduate students, hence DOA scheduled a PG course session of 1 day, which was held in Lady Harding medical College on 17th March. What can be better than this for an exam going 3rd year PG resident? This course not only brushes up the fine knowledge of the residents, allowing them to fine tune their clinical skills but it also gives an idea of depth of preparation of each candidate. The session was great with 8 cases were being discussed, in which 3 cases were long cases including hip and spine and 5 cases were shorts cases including most common cases like cubitus varus, CTEV etc. Faculty included the faculty from MAMC, LHMC, UCMS and VMMC. Faculty members encouraged all the students by providing them the

fine inputs and moreover scrutinizing them on gross mistakes to polish them before their exams. Good aspect of this conference was that it was also attended by all the 2nd year PG residents making it a full house. Nail biting discussion and exhaustive scrutiny became the hall mark of this PG session.

Following this great PG session came the much talked and anticipated event of DOA's Day out at Mirpur for which Dr. S.S. Yadav had invited DOA members to visit his current working place on 18th march to learn some of his experiences. The Day began with the beautiful morning with a nice climate. Gradually members have started gathering to march forward to be a part of this annual event. Moreover the beauty of the vent was that there was nothing like registration fees for any DOA member. It was an educational and recreational event organized by DOA under chairmanship of Dr. SS yadav. DOA members received a warm welcome at Mirpur Institute of medical sciences (A charitable Rural centre of Excellence), when we arrived at around 10:00 A.M. on 18th March. Following breakfast, there was a

clinical meeting in which lectures were taken by Dr. S.S. yadav and other professors highlighting the current work and upcoming advances in deformity correction and tumour management. The conference was attended by around 150 DOA members including some of the highly respectable DOA members like Dr. S.M. Tuli and Dr. P.S. Maini.

Clinical session was followed by wonderful lunch arranged by Dr. S.S. Yadav for DOA members. After lunch, DOA members were taken for a round around the complex of this hospital, in which we witnessed the world class facilities available in the rural area. The whole complex was made in such a manner to provide best management for the patients of Mirpur. Hospital round took

around 1 hour to finish. A high tea with thoughtful discussion embarks the end of this wonderful

DOA days out. We desire to show our gratitude to Dr. S.S. Yadav to invite DOA members for such a wonderful educational-cum-recreational event.

UPCOMING EVENTS

Delhi Orthopaedic Association
Ilizarov Course

ILIZAROV SIMPLIFIED
April 22nd 2018, 9 am to 5pm
Venue: Hotel Hans, Barakhamba Road, CP Delhi
(Seats are limited to 40)
Registration Rs.3000/-
